WORK-BASED LEARNING

Another option where classroom education meets hands-on application in more of a non-traditional setting—apprenticeships, career coaching and support, and internships. We can help you with access to resources like labor hiring events and career fairs. Visit our CSI Work-Based Learning Center for more information.

WORKFORCE DEVELOPMENT AND TRAINING

Gives individuals an opportunity to learn new skills, but also helps local employers utilize exceptional local training for their employees in the classroom, in a lab or in the field. Our workforce training programs are designed to connect individuals with the skills they need to grow in their careers right here in the Magic Valley. We work to make sure our programs meet the educational requirements for professional licensure or certification in the state of Idaho. Visit our website to subscribe to our newsletter to stay up to date on all of the opportunities and latest news.

BUSINESS & INFORMATION SYSTEMS

Community focused and student-centric. Supporting business leadership throughout Idaho. Dozens of in person and online degrees and certificates to take your career to the next level

THE COLLEGE OF SOUTHERN IDAHO is inviting community members to the campus to explore resources for accessing quality educational, social, cultural and workforce training opportunities. We will be celebrating with fun activities for children.

The CSI Student Recreation Center (SRC) is a 32,000 square foot recreation facility, spanning three floors. The center is home to a basketball/volleyball court, an elevated four-lane indoor running track, three separate weight areas, a cardio loft and hall, full locker rooms and three group fitness rooms that host intramural sports, aerobic, yoga and dance classes.

CSI Outdoors provides our community

members with adventure-based learning through outdoor and wilderness experiences. Fostering an environment of self-efficacy and interpersonal growth, each adventure seeks to create awareness for environmental stewardship, develop leaders, and promote lifetime active living. In an effort to tap into a diverse range of interests among students and community members, CSI Outdoors offers a variety of activities for the first-timers to the seasoned outdoor enthusiast. Outdoor adventures include: kayaking, paddleboarding, swimming, hiking, mountain biking, camping, rock climbing, backpacking, caving, snowshoeing, skiing, snowboarding, cross country skiing, white water rafting, educational clinics, and special events. There is also a rental shop with limited availability of gear for your next adventure.

Established in 1999, the CSI Challenge Course has grown into the largest pole ropes course on a college campus in the world. The CSI Challenge Course is nestled in a park-like setting adjacent to the main campus. The course offers low elements from close to the ground to 12 feet and high elements up to 50 feet. Each program hosted on the outdoor course is designed to approach learning in an extraordinary setting, building a foundation for the transference of new skills, language, strategies, and knowledge into the workplace and daily living. Through the utilization of games, initiatives, and elements that are both physically and intellectually challenging, enhanced awareness and constructive behavior change can result. We can accommodate groups from 10 to 300. Visit the Challenge Course during our event for an opportunity to check out the zip line!

The Bridge to Success Program is dedicated to

empowering degree-seeking students to navigate barriers and challenges, access resources for academic and personal growth, and develop skills for success beyond the classroom. The main objectives of the program are to meet the diverse needs of the students we serve, promote community engaged learning, foster social and academic relationships between students, faculty, and CSI staff, and to prepare students to enter the workforce.

If you are at least 16 years old and not enrolled

in public school, let College and Career Readiness help you move ahead with your education, whether you need to improve skills for work, college, or to obtain a GED®. We also have academic classes for non-native English speakers to improve their English language skills. All at no cost to you.

CSI is Idaho's first federally designated Hispanic serving institution

MACHINING AND MANUFACTURING TECHNOLOGY

The Machining and Manufacturing Technology Program will be giving away items to kids and adults, alike. Come visit us to learn how you can earn a certificate or degree in the high-tech world of manufacturing.

AUTOMATION ENGINEERING AND FOOD PROCESSING TECHNOLOGY

Giving away free ice cream cones and sharing orders of fresh cut french fries. Come visit us in the Applied Technology and Innovation Center — ATIC to learn how you can earn a certificate or degree in this field.

Lifelong Wellness helps people of all ages achieve and maintain a healthy and active lifestyle.

Over 60 Getting Fit is an award-winning program that emphasizes walking as low-impact cardiovascular movement, stretching, and resistance training in locations throughout the Magic Valley. Our program is geared to serve older adults with varying levels of functioning abilities during the College of Southern Idaho's fall, spring, and summer semesters. This is a FREE program sponsored by the College of Southern Idaho, in partnership with the CSI Office on Aging.

Classes are specialized to provide a more intense workout in a smaller class size setting. You can choose from well-known premium classes like Zumba Gold, Weight Training, Pilates, Yoga, Restorative Yoga, and so much more! Come visit us at the CSI Community Open House to get signed up!

Restorative Yoga, and so much more! Come visit us at the CSI Community Open House to get signed up!

The CSI Library is a 24,000 sq ft modern facility where community members can browse the collection, read magazines, log into

computers for limited use, and with the purchase of a community card, check out materials. There is no cost for seniors over age 60 to obtain a community card. Adult residents of Twin Falls and Jerome counties can get library cards free of charge with valid ID and proof of address. The collection includes books, reference works, journals, magazines, maps, printers, research services, book club, and more. The library provides information resources and services to the college and to the community. Come visit us to find out more during the open house event!

Your education is our mission! Let us help you navigate through the process to use military benefits you may be eligible for while attending CSI.

CSI's Fine Arts Center has been the cultural hub for Twin Falls and the Magic Valley for more than 50 years, hosting thousands of performing arts events and conferences. From college productions to world class touring shows, student recitals to nationally-renowned speakers, corporate meetings to youth summer day camps, the CSI Fine Center has it all! The Fine Arts Center is home to CSI Music, Theatre, Dance, community education and youth summer camp activities.

The CSI Community Education Center offers non-credit enrichment classes for adults across a wide variety of interests in the arts, money and finance, health and fitness, hobbies, home and garden, and more. We also offer summer camps for youth, performing arts productions, cultural opportunities, and speakers. You can register for classes in Twin Falls or at one of our off campus locations in Jerome, Gooding or Burley.
